### Happy Spring

The weather is still a combination of seasons, but that's how weather is ...*uncertain*, just like investing. Anyone with mutual funds or variable products knows that 2022 wasn't the best year for the stock market. However, first quarter statements were probably encouraging to see. Read on for an update on our move to LPL last year and an upcoming opportunity to learn more on investing in an *uncertain* market.

### LPL mailings

The transfer to LPL was pretty seamless on our part last year. However, since then we needed to manually double check information on each client. This would explain LPL mailings that may have landed in your mailboxes recently. Anything we needed to adjust or confirm, generated a confirmation letter to clients. We ask that when you get those mailings simply **confirm the accuracy of your phone number, email address, income, occupation, etc. If not correct, please give us a call** so we can get it corrected. **Heidi would be your go-to at 920-652-2570.** Thanks for your understanding and your assistance!
